Pool Scale 1000ML

Schimmel, metaal en
vlekken beheersing

POWER PLUS Pool Scale, metal and stain control

Prevent metal stains and scale, while treating hard water with Scale, Metal, and Stain Control.

- Prevents metal stains and scale formation
- Great for preventing scale build up on salt cells in salt pools
- Removes fresh metal stains including iron and copper
- Perfect for treating hard water
- Perfect for efficient, lasting salt cell performance

Keep Out of reach of children
Causes eye burns
May cause skin irritation
Do not taste or swallow
Do not mix with other chemicals

First Aid: IF IN EYES: immediately flush with cold water for at least 15 minutes.
If irritations persist get medical attention.
IF ON SKIN: Rinse of excess products and wash skin with soap and water. Get medical attention if irritation develops.
In case of emergency: SEE A DOCTOR

Contents: 1000 ml

Algeacide 60 1000ML

Doodt en voorkomt
groene, gele en
zwarte algen

POWER PLUS ALGAECIDE 60 for swimming pools

Kills and prevents green, yellow and black algae - Non Foaming

- Work best in warm water
- Keeps algae in suspension
- No foaming from use
- Swim directly after use

- HEAT ACTIVATED - Power Plus Algaecide 60 works best in warm waters. The product will not stain surfaces and leaves zero residues.
- COAT THE WALL - Algaecide coats the walls of the swimming pool, keeping algae in suspension. Surfactant splits open algae cells, helping to destroy them. The Power PLUS algaecide 60 coats the pool wall to control the problem, keeping your swimming pool crystal clear.
- SAFE TO SWIM - This fast acting treatment lets you swim directly after placing in your swimming pool. Algaecide can even act as a cleaner or remover for black, green and mustard algae, all while being super safe for swimmers. Trust POWER PLUS algae 60 for reliable pool supplies, chemicals, and swimming pool accessories.
- NO FOAM - Whether you have an in-ground or above ground pool this product will work to keep algae at bay without making your swimming pool filled with foam.

Algaecide 30 1000ML

Doodt en voorkomt
groene, gele en
zwarte algen

POWER PLUS ALGAECIDE 30 for swimming pools

Algae are microscopic forms of plant life that can inhabit your pool water. Some algae float in the water, whereas others cling to the sides of your pool. Algae is constantly blown into the pool by wind, dust storms and rain. Without an algae preventer, your water can easily become cloudy, discolored and eventually slimy and smelly. Why let algae stand between you and your pool .

Powerplus algaecide 30 is a concentrated, non-foaming algaecide product that, when used regularly, will prevent and kill the growth of green, black and yellow algae. Powerplus algaecide 30 is 3x stronger, formulated to kill and prevent stubborn green, black and mustard algae. Apply this non-foaming algaecide directly to pool water - and swim just 15 minutes after use. Kills & prevents all algae types including green, black & mustard algae.

- Non-foaming
- Preventative treatment
- Remedial treatment
- Treats all types of algae
- Swim immediately
- Application: direct to pool

Chlorine Tablets 3 inch

Houdt uw zwembad schoon en
helder en beschermt tegen
chloorverlies door blootstelling
aan de zon

Power Plus 3 inch Chlorine Tablets

Power Plus" Chlorinating tablets keep your pool clean and clear with a 4-in-1 formula that sanitizes pool water and protects against chlorine loss due to sun exposure. They're great for all pool types including vinyl-lined pools and salt water systems.

Protect your indoor and outdoor swimming pool against bacteria, algae, and other organisms and enjoy clean, clear water with Power Plus 3" Chlorinating Tablets. This stabilized chlorine sanitizer comes in 3" tablets for use in feeders, floaters and skimmers; it's also compatible with saltwater systems. Easy to use and slow dissolving to provide a steady source of free available chlorine, one tablet treats 10,000 gallons of water for up to one week. These chlorine tablets are formulated with cyanuric acid, CYA, to help protect against chlorine loss due to sunlight, and they have built-in algae protection and clarifier. Spend more time splashing and less time sanitizing with Power Plus 3" Chlorinating Tablets for swimming pools.

- 90% available chlorine
- 3" Chlorine Tablets are slow-dissolving and stabilized
- 99% Trichloro-S-Triazinetrione (Trichlor)
- Perfect size for floaters or any automatic chlorine feeder
- Compatible with all above ground or in-ground swimming pools
- Ideal for use in feeders, floaters, and skimmer baskets
- 24-Hour residual chlorine performance for round the clock activity
- Kills bacteria and controls algae in your swimming pool
- No mineral scale build-up
- Will not cloud water

SHOCK CHLORINE

Zorgt voor een veilige atmosfeer door bacteriën, algen en andere schadelijke verontreinigingen te vernietigen

POWER PLUS SHOCK CHLORINE

Calcium Hypochlorite: for short, is the most economical pool shock you can buy. It is available in 70% strength and is not stabilized.

Provide a safe atmosphere with perfect water clarity for swimming by destroying bacteria, algae and other harmful contaminants. Calcium hypochlorite chlorine granules will provide you with the sanitizing power you need to keep your swimming pool or spa water crystal clear and safe for your swimmers. Calcium Hypochlorite chlorine granules are designed for sanitizing swimming pools and spas and is widely used throughout the swimming pool industry for disinfecting water. Very effective at killing and deactivating harmful contaminants such as bacteria, algae and other microorganisms. Calcium Hypochlorite granules can be used on a routine basis to keep your pool or spa water clean and can also be used as a shock treatment when extra sanitizing power is required to kill organic contaminants. By destroying bacteria, algae, germs and pathogens, calcium hypochlorite pool granules provide a safer swimming environment while also improving and maintaining water clarity. Calcium hypochlorite granules will provide you with the sanitizing power you need to keep your swimming pool or spa water crystal clear and safe for your swimmers.

- Balance pH to 7.2 - 7.4 before shocking, for the most powerful effect.
- Add Pool shock separately, it can destroy or disrupt other treatment chemicals.
- Never allow pool shock to become hot, moist or contaminated with dirt or debris.
- Never allow pool shock to mix with any other pool chemical, even the same type.
- Never store opened bags of shock, which can spill. Use entire bag at one time.
- Never pour pool shock into the skimmer, pre-dissolve for use in vinyl liner pools.
- When broadcasting shock across the surface, be mindful of the wind direction.
- Brush the pool after shocking, and filter the water for at least 8 hours afterward.
- If chlorine level is zero within 8 hours of shocking pool, shock pool again, harder.
- Shock your pool after the sun goes down, to reduce effects of UV degradation.

When and Why to Shock a Pool

1. To reduce the build-up of micro-contaminants and organic matter
2. To destroy both harmless and pathogenic bacteria in the water
3. To remove combined chlorine molecules, aka chloramines
4. To kill algae blooms, or to treat cloudy pool water

Other Uses for Pool Shock

- Organic stain removal on a plaster pool surface
- Raising chlorine level fast when discovered near zero
- Raising or Keeping chlorine level during pump, filter or salt system troubles
- Spot treating small algae colonies in corners and crevices

How to Shock a Pool

1. Check pH level and adjust if needed to a low-range pH of 7.1-7.3
2. Clean the pool to remove leaves and debris, remove pool cleaner
3. Determine how much shock is needed to fix the situation
4. Add shock directly to the pool, vinyl pools should pre-dissolve chlorine shock
5. Add shock when the sun is not shining directly on the pool
6. Run filter and brush pool to help distribute and circulate the shock

PH plus

Verhoogt de pH van het zwembadwater voor een correcte waterbalans

POWER PLUS POOL PH PLUS

100% Sodium Carbonate
PH increaser

Description:
Increases pH of pool water for correct water balance

Features:
1000g/Kg Sodium Carbonate assists in pool surface protection

Benefits:

- Provides comfort to bathers
- Promotes improved water balance
- Protects metal fittings from corrosion
- Ideal pH improves bather comfort

Application:
Ideal pH should be between 7.2 - 7.8
Dosage rates per 10,000L
pH <6.8 - add 100g
pH 6.8 - 7.0 - add 80g
pH 7.1 - 7.2 - add 40g
pH 7.2 - 7 - add 0g

Aluminium Sulfaat

Wordt gebruikt om zeer troebel zwembadwater te zuiveren

POWER PLUS POOL MAGIC POWDER FLOC (ALUMINIUMSULPHATE)

Description:
Granular form clarifier to clear very cloudy pool water

Features:
1000g/Kg Aluminium sulphate
Improves filtration

Benefits:
Clarifies swimming pool water

Pre-dissolve in a bucket of water then distribute the mix over the entire pool
Allow the sediment to settle (this may take 24 - 36 hours)
Vacuum to waste

Keep Out of reach of children
Do not taste or swallow
Do not mix with other chemicals

Available in: 1kg, 2kg & 3 kg packing

Stabilisator

Houdt uw zwembad schoon en beschermt chloor tegen zonlicht

POWER PLUS CHLORINE STABILIZER

PRINCIPAL FUNCTIONING AGENT:
CYANURIC ACID.....100.0%

Keep your pool clean and protected with this Super Power Chlorine Stabizer Chlorine Stabilizer. It protects chlorine from sunlight, helping it last longer and protecting your chlorine from burning off under the sun's ultraviolet rays means longer-lasting sanitation. In addition, longer-lasting sanitation means more splashes, more dives and more pool fun. This swimming pool chlorine stabilizer is ideal for new pools, saltwater pools and pools that sanitize with chlorinating liquid. The sun can destroy your sanitizer by causing it to evaporate before it can clean your water. You can't exactly move your pool inside, but you can add this to counter the sun's effects, and keep your chlorine levels, well and stable. Prevents chlorine loss

- chlorine stabilizer enables chlorine to last longer
- Protects chlorine from sunlight degradation
- Ideal for new pools, saltwater pools and pools that sanitize with chlorinating liquid

Keep Out of reach of children
Do not taste or swallow
Do not mix with other chemicals

Available in: 1kg, 2kg & 3 kg packing
